Nestled comfortably in an 110 acre tract of farm and woodland, but just 10 minutes away from North Jersey shopping hubs, Idylease offers convalescents and senior citizens a unique, new concept in living.

Idylease combines the facilities of a modern medical and geriatric center with the therapeutic, nursing and recreational facilities of the finest convalescent home.

"The pressing needs of convalescents and older people for companionship, considerate attention, kindness, freedom from economic worries and family stresses must be met along with their physical and medical needs," Dr. Arthur Zampella told his staff when they undertook conversion of the 50-room resort to a modern convalescent and geriatric center.

This thought is evident in all of the Home's activities and services.

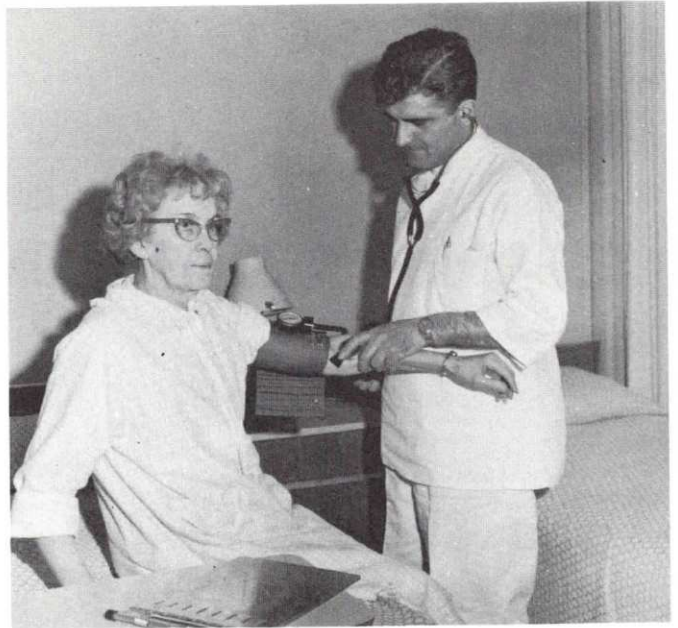

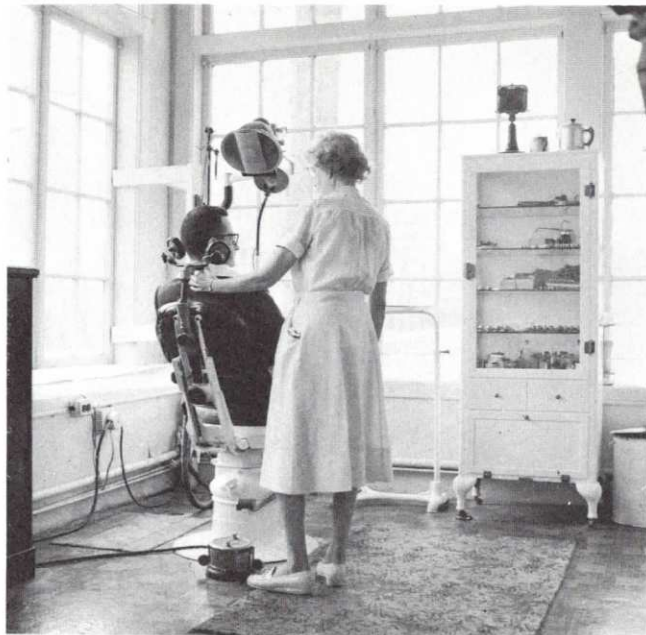

The home-like atmosphere for the ambulatory aged encourages them to lead a normal life within their physical capabilities. However, help is always there as they need it.

No planned routine activities are imposed upon anyone, but all are discouraged from "staying in their rooms". For, we believe that friendly sociability and hobby pursuits tend to hasten the convalescent period.

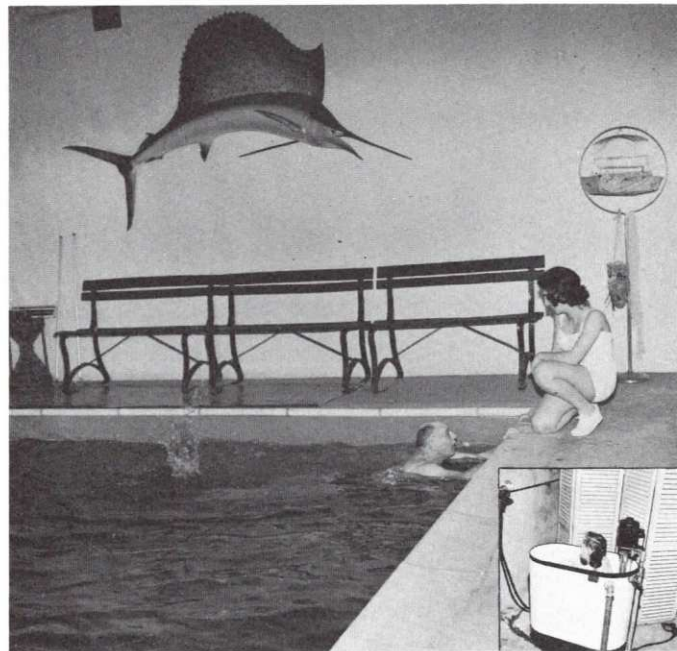

Regular, daily medical attention is available from the resident staff on a 24-hour basis.

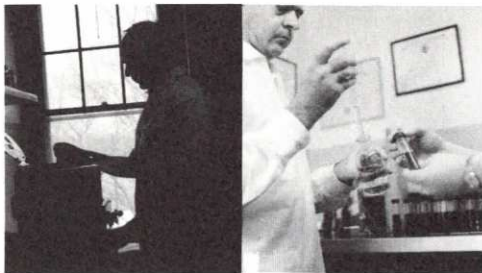

Dental office and laboratory in the main building is another of the many services that insure all residents of maximum comfort and care.

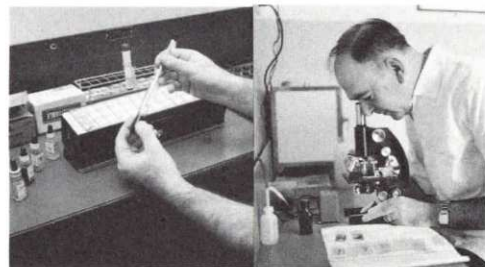

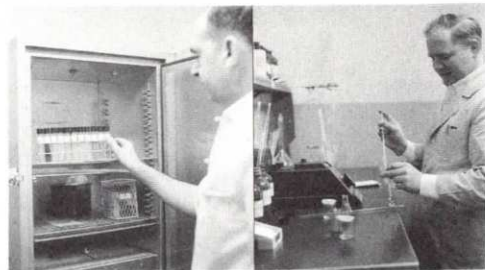

Large, specially equipped heated swimming pool with auxiliary hydrotherapy equipment is staffed by trained therapists.

Laboratory facilities supporting geriatric treatment and research include bacteriology, blood chemistry, blood grouping analysis, papanicolaou staining, clinical laboratory and sterilization rooms.

Idylease's own private ambulance service is backed up by the facilities of a number of other trained, local ambulance corps in the area.

Prompt and comfortable transportation to and from Idylease is always available when private transportation may be difficult.

Meals are usually informal though frequent "special occasions" call for Sunday best.

The cuisine is carefully supervised by a trained dietician and prepared by expert chefs who are quick to respond to individual tastes and needs.

Private rooms are tastefully decorated to the individual's preference. Large, airy rooms, generous closets and comfortable furniture are blended with the modern equipment to make the convalescent or senior citizen most comfortable.

Four-bed solarium provides a comfortable "outdoor" atmosphere throughout the year. Windows frame one of the most beautiful "all seasons" views in northern New Jersey.

The ladies who are used to having their hair "done" at the hairdressers' may visit the salon in the main building or, a salon in one of the nearby towns.

And there's always help in "priming" from the regular staff for dinner or a special occasion.

Idylease church services are provided by the local clergy regularly. For those who prefer to go out to worship, churches of all denominations and faiths are a few minutes away.

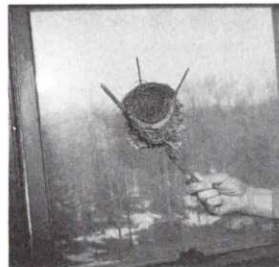

Music is a familiar sound at Idylease, and often, it comes from the organ in the main sitting room.

The projector is ready to roll. Frequent afternoon and evening films are shown for those who are not able to attend local theaters.

Idylease's gift bar is well known in the Newfoundland area. Handicrafts, mineral collections and nature study are just a few of the many hobbies in which Idyleasers find activity and interest.

Those who appreciate art will find Idyl-
ease a collector's paradise. This 300 year-old
Durer wood engraving, inlaid with 100 va-
rieties of teak, mother of pearl and gold,
hangs in the main hall.

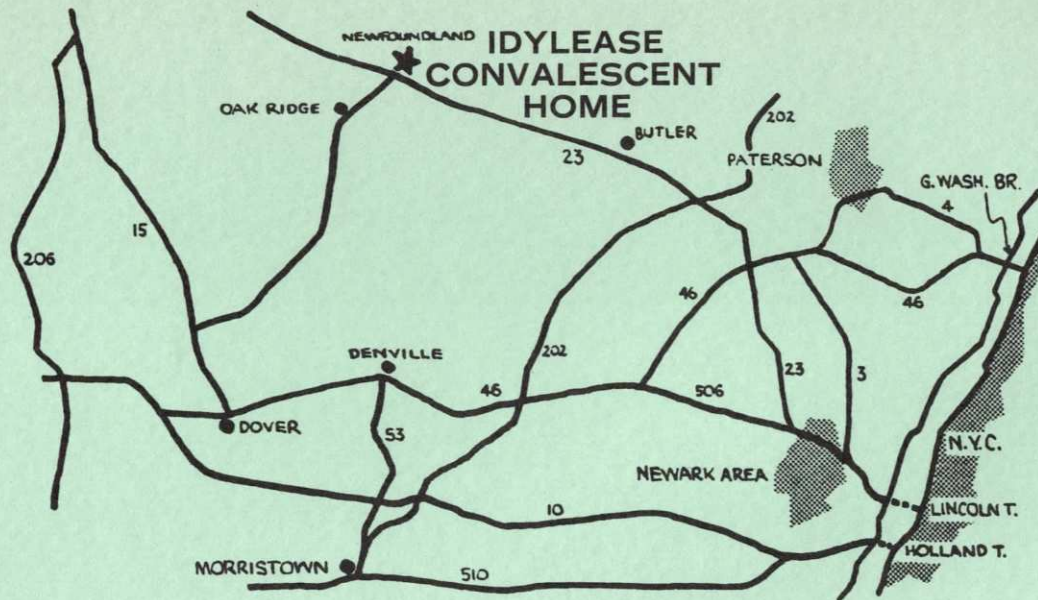

When an Idylease guest wants a quiet time or a quiet place,
there's always one close by

..... to write a letter

..... to watch a ball game

..... or to relax with a new issue
of his favorite magazine.
